

Program Overview Forest Ecology Research

4. Semester

Master Thesis (6 months)

3. Semester

3-week block before	Time	Monday	Tuesday	Wednesday	Thursday	Friday	3-week block after semester
Elective (optional)	08:00-12:00	Forest Sciences: Professional & Research Approaches		Forest Growth & Structure		Frontiers in Forest Sciences	Elective (optional)
	14:00-18:00				e.g. Elective		

Outline

- 3 Core modules
- 10 Major modules
- 3 Electives
- 1 Internship
- 1 Master Thesis

2. Semester

<i>In the form of 3-week blocks</i>	Experimental Ecology	Tree & Forest Eco-physiology	Forest Pathology	Forest Entomology	Elective (optional)	Internship (min. 7 Weeks)
-------------------------------------	----------------------	------------------------------	------------------	-------------------	---------------------	---------------------------

1. Semester - Winter

	Time	Monday	Tuesday	Wednesday	Thursday	Friday	3-week block after semester
<i>In the form of weekly, continuous courses</i>	08:00-12:00	Forests and Global Change	Applied Environmental Statistics	Analysis of Biodiversity Data	EcoFun		Elective (optional)
	14:00-18:00			Genetic & Genomic Methods in Wildlife Conservation	Forest Soils and Climate
